

# Algorithmia

Resources about Algorithmia, a company that provides a marketplace that enables algorithm developer to explore, create, and share algorithms as a web services.

Table of Contents:

- [Perspectives on Algorithmia](#)
- [Vendor Information](#)
- [Downloads and Add-Ons](#)
- [Further Reading](#)

Below we have compiled publicly available sources from around the world that present views on Algorithmia.

## Perspectives on Algorithmia

### Ready to see behavioral analytics in action?

## Further Reading

- [Arimo - Adatao](#) — Resources about Arimo (formerly known as Adatao), a company that offers an interface that enables business users, data scientists, developers, and data engineers to collaborate and present insights from big data.
- [Algorithmia](#) — Resources about Algorithmia, a company that provides a marketplace that enables algorithm developer to explore, create, and share algorithms as a web services.
- [Context Relevant](#) — Resources about Context Relevant, a big data analytics startup that sells on-premises software, cloud services, and professional service solutions to help businesses accelerate analysis and actionable insight.
- [Continuum Analytics](#) — Resources about Continuum Analytics, the creator and driving force behind Anaconda, the leading Open Data Science platform powered by Python.

**Be the first to get the latest news on analytics**

- [Dataiku](#) — Resources about Dataiku, a company that develops collaborative data science software marketed for big data.
- [Domino Data Lab](#) — Resources about Domino Data Lab, a company that provides data science teams with best practice knowledge management, reproducibility, rapid development and deployment of models.
- [Mode Analytics](#) — Resources about Mode Analytics, a cloud service that data analysts can use to query and visualize data.
- [Plotly](#) — Resources about Plotly, a service for creating and sharing data visualizations that also offers statistical analysis tools and a robust API with the ability to graph custom functions and a built-in Python shell.
- [Nutonian](#) — Resources about Nutonian, a data mining software package. It offers Eureqa Desktop, a technology solution that uncovers the intrinsic relationships hidden within complex data in oil and gas, life sciences, and retail industries.
- [Yhat](#) — Resources about Yhat, a cloud solution that allows users to embed predictive models written in Python and R into various software applications.
